

Reference Letter for Lombardi Builders

We built our house in Holmdel in 1999/2000 and contracted Robert Lombardi to be our project manager. Since this was our first experience we relied heavily on Robert's advice and expertise at every step. Lombardi Builders provided an onsite manager who handled day-to-day tasks supervising various skilled craftsmen.

Robert took the time to understand our needs and requirements and guided us through the whole process to help build a beautiful 6700 sq ft house on a 6 acre property. Through his diligent project management, we were able to successfully build our house in 10 months. Lombardi Builders were instrumental in obtaining building permits, working with the township engineers and architect, selecting and scheduling all building professionals, ensuring building supplies and equipment were available on time, and interfacing with us and the contractors for insurances, payment, etc.

In addition to Robert's personal attention to all the details we also received excellent service from his office staff. They are an extremely professional and friendly team. They provided us with a lot of resources in home design and decoration. Lombardi Builders made our construction effort a pleasurable experience and a truly memorable one.

It has been 8 years since we moved into the home and the superior quality construction is still evident today. We highly recommend Robert Lombardi and his competent team for any new construction or home improvement jobs.
